

## Guest Speaker Seminar

# Dr. Angeline Letendre

Lead Scientist, Community Research Stream at Alberta Cancer Prevention Legacy Fund, Alberta Health Services, Vimy, Alberta, Canada

### BEYOND THE BORDERS OF WESTERN THEORY AND PRACTICE: A JOURNEY INTO ETHICAL SPACES AND THE DISCOVERY OF SOLUTIONS TOWARD BETTER CANCER PATHWAYS FOR FIRST NATIONS, INUIT AND MÉTIS PEOPLE

Dr. Angeline Letendre is the lead scientist of the Community Research Stream for Cancer Prevention and Screening, including Health Promotion with the Alberta Cancer Prevention Legacy Fund at Alberta Health Services. In her position she works with research/researchers to integrate findings into strategy, services and program delivery with a special focus for First Nations, Inuit and Metis communities in Alberta. The long term vision is to support re-connections between screening and prevention and cancer care in a context of Aboriginal communities.

**Tuesday, October 27<sup>th</sup> 2015, 2 pm, ATAC 5036**

**Everyone is welcome**

Sponsored by the Anishinaabek Cervical Cancer Screening Study
